1. Introduction

1.1. Identification

1.2. Goal of this document

1.3. Document overview

2. Project description

2.1. The Ampersand project

2.2. As-Is situation

2.3. Goal of the project

2.4. Project architecture, components and environment

2.5. Critical success factors

2.6. Our objectives and commitments towards the project and customer

3. Knowledge acquisition

3.1. Onderzoekscontext

3.2. 3a domein & techniek

3.2.1. Part Daniel

3.2.2. Part Maarten

3.3. Knowledge documentation

4. Project approach

4.1. Project methodology

4.2. Project planning (& phases)

4.3. Project milestones and corresponding deliverables

5. Project management

5.1. Project governance / roles & responsibilities

5.2. Communication

5.2.1. Internal

5.2.2. OU

5.2.3. Customer

5.3. Time keeping

5.4. Project reporting

7. Interferences with other projects

(code conflicts, etc...)

8. Risk management

8.1. Risk identification and qualification

8.1.1. Functional risks

8.1.2. Technical risks

8.2. Risk mitigation plan

9. Project realization

9.1. Coding conventions

9.2. Scrum approach

9.3. Validation

10. Testing & Validation

10.1. Test approach

10.2. Test methodology

10.3. Test plan & Milestones

10.4. Test documentation

11. Issue management

12. Integration & release

(acceptation, communication, etc...)

13. Documentation

13.1. Documentation plan

13.2. Deliverables

14. Tools, methodologies and accelerators

14.1. Collaboration

14.2. Documentation

14.3. Design

14.4. Development

14.5. Testing
